

ASHLEY NEW

PROFESSIONAL SUMMARY

Since graduating Methodist Girls' School (Secondary) upon completion of the GCE O Level Examinations, I began helping juniors in various O Level subjects such as Additional Mathematics, Literature and Chemistry. The subjects I took during the O Levels honed my critical thinking skills and gave me a strong foundation for IB SL Mathematics, HL Chemistry and HL Psychology. During my time at SJII, I continued helping my peers in these subjects, explaining key concepts as well as how to apply them to a variety of questions. Watching those whom I teach overcome their roadblocks to attain better results is immensely fulfilling for me, and my experience with teaching has made me realise how much I enjoy helping others improve.

With regards to my teaching style, I believe that there are two primary 'prerequisites' to attaining good results – understanding theoretical concepts, as well as how to structure an answer in a way that maximises the number of marks obtained. This is done through identifying areas of weak understanding with the student, explaining such areas in a manner that the student can understand, and then practising application of knowledge through completing exam-style questions. As a strong believer in self-directed learning, I work with students to set personal academic goals and find their own motivation for improving.

EDUCATION

St Joseph's Institution International, Singapore

- Graduated in November 2020
- International Baccalaureate (43 points)
- 7: HL Psychology, HL Chemistry, SL Mathematics, SL Chinese B
- 6: HL Theatre, SL Lang & Lit
- *Methodist Girls' School (Secondary), Singapore*
- • Graduated in November 2018
- • GCE O Levels (9 points, raw)
- • A1: English, Literature in English, Mathematics
- • A2: Chemistry, Physics, Additional Mathematics
- • Awarded Edusave Scholarship for Academic Excellence (2015, 2016, 2018)

SKILLS

- Patient
 - Organised
 - Good at communicating • Engaging
 - Motivational
-
